SamaritanHealthcare.com

A collaborative service of the Grand Columbia  Health Alliance

Heart health expertise, close to home.

Advanced cardiology services

Samaritan Healthcare provides non-invasive cardiology services to help patients recover after heart attack or heart failure, as well as preventive care to help patients lower the risk of heart disease, heart attack, and stroke.

Resident cardiologist

Our on-site cardiology team includes cardiologist, Dr. Raj Karnik. He has nearly 30 years of experience providing comprehensive cardiology care. He uses a combination of treatments which includes prescribing medication and suggesting lifestyle changes to help patients manage their heart health.

Access to regional partners

While most heart conditions can be treated at Samaritan Healthcare, a seamless connection between Samaritan and regional cardiology partners allows Dr. Karnik to treat more complex cardiovascular conditions.

Raj Karnik, MD

“Healing is more than just understanding the mechanics of a disease. Understanding the entirety of a person is critical—the things they’ve learned, the way they approach their condition, and their life experiences. Knowing the patient helps me to design individual treatment plans that work best for them.”
— Dr. Raj Karnik

Person-centered care

Dr. Karnik is double board-certified in Cardiovascular Disease in Internal Medicine, which gives him a thorough understanding of how the cardiovascular system interacts with each system of the body. He focuses on getting to know his patients, their daily lives, and their families to help him care for the whole person—body and soul.

Samaritan’s Cardiology treatments include:

- Evaluation and management of chest pain
- Acute coronary syndromes
- Heart rhythm disorders
- Heart valve disorders
- Lipid disorders
- Syncope (loss of consciousness)
- Vascular disease
- Vein ablation
- Nutrition assessments
- Cardiac rehabilitation

Receive world-class care, locally.

If you have a heart condition or if you are recovering from heart attack, heart failure, or stroke, high-quality cardiology is available right here in Moses Lake.
