# Heart health expertise, close to home.

## Advanced cardiology services

Samaritan Healthcare provides non-invasive cardiology services to help patients recover after heart attack or heart failure, as well as preventive care to help patients lower the risk of heart disease, heart attack, and stroke. Our on-site cardiology team uses a combination of treatments which includes prescribing medication and suggesting lifestyle changes to help patients manage their heart health.

## Access to regional partners

While most heart conditions can be treated at Samaritan Healthcare, a seamless connection between Samaritan and regional cardiology partners allows our team to treat more complex cardiovascular conditions.

## Level 3 Trauma Service

If a heart condition requires emergency care, our Level 3 Trauma Service designation from the Washington State Department of Health means we have 24-hour, board-certified general and orthopaedic surgery coverage, a full-scale trauma team with a certified trauma surgeon, certified emergency department and ICU nurses, and 24-hour access to state-of-the-art diagnostic imaging equipment.

## AACPR certified cardiac program

For state-of-the-art recovery following a heart condition, our Cardiac Rehabilitation program began in 2016, was certified in 2018, and re-certified in 2021 by the American Association of Cardiovascular and Pulmonary Rehabilitation. It is the only program available within a 70-mile radius of Moses Lake. The program provides care for patients needing Phase II or Phase III cardiac rehabilitation (rehab).

### Samaritan's Cardiology treatments include:

- Evaluation and management of chest pain
- Acute coronary syndromes
- Heart rhythm disorders
- Heart valve disorders
- Lipid disorders
- Syncope (loss of consciousness)
- Vascular disease
- Vein ablation
- Nutrition assessments
- Cardiac rehabilitation

## Receive world-class care, locally.

If you have a heart condition or if you are recovering from heart attack, heart failure, or stroke, high-quality cardiology is available right here in Moses Lake.

**Speak with your primary care provider about receiving a Cardiology referral.**
