Dr. Calle Ann Gonzales
Pediatrics

Kids think they are cool, parents know they are comprehensive.

Family-friendly Pediatrics.

Our Samaritan Healthcare Pediatrics providers—Dr. Calle Ann Gonzales, Dr. Kriti Narwal, and Advanced Registered Nurse Practitioner Kimberlee Poole—care for children of all ages, from infants to young adults. They listen and get to know their patients and their families— seeking to understand their concerns. Because they work together as a team, it makes it easier for busy families to schedule pediatric appointments with all providers.

Convenient Clinic Location.

The Pediatrics department at Samaritan Healthcare is located in a larger, newly remodeled space on the third floor at Samaritan Clinic. This allows families to have their family healthcare services under one roof. If patients require additional tests or x-rays as a result of their office visits, they can conveniently schedule their appointments in the same building. It's easy access, the way it should be!

Pediatric Services Include:

- Well-child care and guidance
- New baby assessments and education
- Preventive medicine
- Immunizations
- Sports physicals
- Complete adolescent care
- Asthma and breathing issues
- Diabetes, types I and II
- Thyroid disorder
- Disorders of growth and puberty
- Behavioral evaluation and treatment
- Developmental concerns
- Special-needs children care coordination
- Same-day sick visits
- Other chronic conditions

Listening. Caring. Encouraging

Our Pediatrics providers deliver the very best care for our region's children—from infants on up. Call to schedule an appointment with our Pediatrics care team, **(509) 793-9787**.

Kimberlee Poole, ARNP

Calle Ann Gonzales, MD

Kriti Narwal, MD

“We're happy to make it more convenient for families to see their providers and receive care. Being in the same building with family practice makes the most sense.
—Kimberlee Poole”

Kimberlee Poole, ARNP

Advanced Registered Nurse Practitioner (ARNP) Kimberlee Poole has been in Pediatrics at Samaritan for many years and children enjoy seeing her friendly, familiar face when they come in the door. She loves working with children and providing the very best care when they need it most. As an ARNP, Kim has an extensive medical background and education to support her experience in caring for patients. She is also a mother herself, which makes it easy to relate to the families and children she cares for.

Dr. Calle Ann Gonzales

DDr. Calle Ann Gonzales, pediatrician at Samaritan Hospital, has always enjoyed providing care for children. She has significant experience in inpatient healthcare, including complex pediatric conditions. Providing care for children who have been admitted to the hospital, Dr. Gonzales works closely with her patients' primary care providers and coordinates specialty care when needed.

“I enjoy getting to know my patients and their families so I can provide the best care. Overall good health includes good food choices, play and exercise, safe environments, social support systems, along with regular communication with your healthcare provider. Together we can address your concerns for better health.
—Dr. Calle Ann Gonzales”

“I am more than a pediatrician. I'm also a source of support and resources. I purposefully focus on building relationships and getting to know my patients and their concerns. My patients and their families know that I'm approachable and will see them as often as they need.
—Dr. Kriti Narwal”

Dr. Kriti Narwal

Dr. Narwal enjoys practicing pediatric medicine in Moses Lake because she has always wanted to provide care for babies and children in a smaller community where it is easier to get to know everyone. She has significant experience in providing newborn assessments, as well as diagnosing the medical conditions of pediatric patients of all ages.
